

ABBOTT TODAY

At Abbott, we're all about helping you live the best life you can through good health. We keep your heart healthy, nourish your body at every stage of life, help you feel and move better, and bring you information, medicines and breakthroughs to manage your health. Every day and around the world, we're discovering new ways to make life better.

We create breakthrough products – **in diagnostics, medical devices, nutrition and established pharmaceuticals** – that help you, your family and community lead healthier lives full of unlimited possibilities.

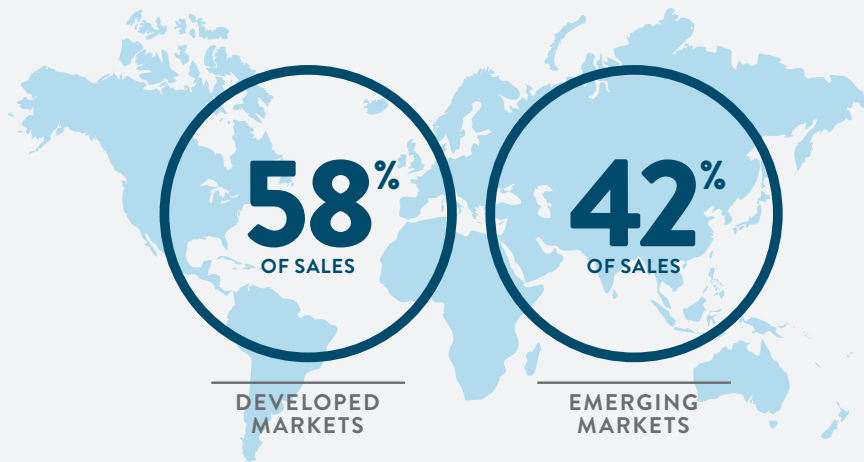

Founded almost 130 years ago by Chicago physician Dr. Wallace C. Abbott, Abbott is now one of the largest diversified global healthcare companies.

Our approximately 94,000 colleagues around the globe are devoted to making a lasting impact on human health in the more than 150 countries we serve.

We believe that good health is not just about treating an illness or managing a medical condition. It's about supporting people's health as if it were our own, so they can live their best lives.

ALIGNED WITH GLOBAL TRENDS

OUR BUSINESSES

NUTRITION

Nourishing your body at every stage of life.

NO. 1 in worldwide adult nutrition

NO. 1 in U.S. pediatric nutrition and many international markets

LEADING in science-based nutrition

We understand that proper nutrition is the foundation for living the best life possible. That's why we develop science-based nutrition products for people of all ages. Our products help babies and children grow, keep bodies strong and active, and support the unique nutrition needs of people with chronic illnesses — to make every stage of life a healthy one.

ESTABLISHED PHARMACEUTICALS

Delivering high-quality, trusted medicines to help people get and stay healthy.

NO. 1 macrolide antibiotic (Klacid®)*

NO. 1 pancreatic enzyme replacement therapy (Creon®)*

NO. 1 brand for progesterone deficiency (Duphaston®)*

We've never taken good health for granted. Whether it's an ordinary headache or a more serious illness, we want people to get better, fast, so they can go back to doing the things they love. That's why we take pride in offering affordable, high-quality, trusted medicines that have been helping millions of people around the world lead healthier lives. But we don't stop there. We continuously improve medicines based on local market insights to make them better, easier to administer and faster to act.

*Ex-U.S. data. Abbott only commercializes its established pharmaceuticals in emerging markets. Brand names and marketing authorization holders in other markets may vary.

DIAGNOSTICS

Bringing you accurate, timely information to better manage your health.

NO. 1 in blood and plasma screening

NO. 1 in point-of-care testing

NO. 2 in core laboratory

NO. 2 in molecular testing

LEADING point-of-care platform in the United States

Diagnostic testing is a compass, providing information that helps in the prevention, diagnosis and treatment of a range of health conditions. Abbott's life-changing tests and diagnostic tools put the power of health in the hands of people in all parts of the world. We're empowering smarter medical and economic decision making to help transform the way people manage their health at all stages of life.

MEDICAL DEVICES

Less invasive, more accurate technologies designed to help people live their lives better and healthier.

NO. 1 in left ventricular assist devices

NO. 1 in remote heart failure monitoring

NO. 2 in cardiac rhythm management

NO. 3 in blood glucose monitoring

Leading an active lifestyle is important to the many people we serve. Whether it's glucose monitoring systems, innovative therapies for treating heart disease, or products that help people with chronic pain or movement disorders, our medical device technologies are designed to help people live their lives better and healthier. We're revolutionizing medical technology to help people better manage their diabetes, treat chronic pain and return to a more active life following treatment for heart disease.
