SUSTAINABILITY & COMMUNITY

We collaborate with dairy farmers to locally source high-quality ingredients for our nutrition plant in India.

1.1BN

More than 1 billion people worldwide could benefit from fortified rice. Abbott scientists helped PATH improve rice fortification technology – which can help address malnutrition globally.

18%

Have reduced total worldwide water intake by 18% since 2010.

29

We have 29 zero-waste to landfill sites worldwide.
