At Abbott, we’re all about helping you live the best life you can through good health. We keep your heart healthy, nourish your body at every stage of life, help you feel and move better, and bring you information and medicines to manage your health. Every day and around the world, millions of people benefit from Abbott’s life-changing technology.

Our Medical Device Business

Leading an active lifestyle is important to the many people we serve. Whether it’s glucose monitoring systems, innovative therapies for treating heart disease, or products that help people with chronic pain or movement disorders, our medical device technologies are designed to help people live their lives better and healthier.

We’re revolutionizing medical technology to help people better manage their diabetes, treat chronic pain and return to a more active life following treatment for heart disease.

Global Leadership

No.1

- In glucose monitoring
- In transcatheter mitral valve repair
- In heart pumps (LVADs)
- In remote heart failure monitoring
- In chronic pain devices
- In stents
A healthy cardiovascular system is essential to good health. That's why at Abbott, we're advancing the treatment of heart and vascular disease through breakthrough medical technologies, allowing people to restore their health and live their best lives. Abbott focuses on improving treatment options for coronary artery disease, cardiac rhythm management, atrial fibrillation, heart failure, structural heart and peripheral artery disease. And, we're working on next-generation breakthroughs that have the potential to improve the way doctors treat people with heart disease. Every day, our technologies help keep about 1.6 million hearts and cardiovascular systems in good health.

**Featured products:**
- Assurity MRI™ Pacemaker
- XIENCE Sierra™ Everolimus Eluting Coronary Stent
- EnSite Precision™ Cardiac Mapping System
- MitraClip™ Transcatheter Mitral Valve Repair
- Supera™ Peripheral Stent System
- TREK® Coronary Dilatation Catheters
- RX Acclunx Carotid Stent System
- RX Accunet® Embolic Protection System
- Armada® 35 LL Catheters
- OPTIS™ Integrated Imaging System
- Masters HP™ Rotatable Mechanical Heart Valve
- PressureWire™ Guide Wires
- HI-TORQUE Guide Wires
- Confirm Rx™ Insertable Cardiac Monitor (ICM)
- Perclose ProGlide® Suture-Mediated Closure System
- Omnilink Elite® Balloon-Expandable Stent
- Quadra Assura MP™ CRT Defibrillator
- CardioMEMS™ HF System
- HeartMate 3™ Left Ventricular Assist Device (LVAD)
- HeartMate II™ Left Ventricular Assist Device (LVAD)
- Amplatzer™ PFO Occluder
- Amplatzer Piccolo™ Occluder
- Ellipse™ Implantable Cardioverter Defibrillator (ICD)

**DIABETES CARE**

At Abbott, we believe people with diabetes should have the freedom to enjoy active lives. That's why we're focused on helping people with diabetes manage their health more effectively and comfortably, with easy-to-use products that provide accurate data to drive better-informed decisions. We're revolutionizing the way people monitor their glucose levels with our new sensing technology.

**Featured products:**
- FreeStyle InsuLinx®
- FreeStyle Lite®
- FreeStyle® Libre
- FreeStyle® Libre Pro
- FreeStyle® Precision/Optium Neo™

**NEUROMODULATION CARE**

Chronic pain and movement disorders can interrupt daily routine and prevent people from living their fullest lives. At Abbott, our spinal cord stimulation has been proven to help reduce or stabilize opioid use among chronic pain patients, and our deep brain stimulation provides relief to patients with Parkinson’s disease. We’re the only medical device manufacturer to offer the full range of spinal cord stimulation (SCS) therapy solutions as well as stimulation of the dorsal root ganglion (DRG). Every day, our technologies improve quality of life for thousands of people living with chronic pain and movement disorders.

**Featured products:**
- BurstDR™ Technology
- Proclaim™ Elite SCS System
- Proclaim™ DRG Neurostimulation System
- Infinity™ Deep Brain Stimulation System
