TOP STORY: INSPIRING A HEALTHIER FUTURE THROUGH STEM

We recently worked together with STEMconnector to create "Stay Healthy,
Learn More." This series of videos and education resources aims to inspire kids
learn to make healthier decisions, from nutritious meals to physical activity.

"Stay Healthy, Learn More" encourages kids to be more active and
limit screen time. The series includes a fun video called "Stay Healthy,"
where kids can follow along with easy-to-follow tips from a variety
of professionals. The series also includes a virtual book, "Stay
Healthy," which kids can read along with a special guest,

We're on the road to outsmarting noncommunicable diseases (NCDs)
through a series of new initiatives we call "Future Well." You can find out
more about this program to help young people protect themselves.

Sustainable R&D

For nearly two decades, we've shared our sustainability expertise,
resources and sustainable business practices to advance development
and improve lives in the U.S. We created a short film to share the
impact of our work in Tanzania. We've invested $250 million
in the country since 2013. Days later, we were also
regarded Companies.

We recently were named a Working Mother Best Companies for Mothers,
for the 19th consecutive year. And
the 61 DJSI industries to maintain the top
sustainable business for the 7th consecutive
years.
