Nutrition

SCIENCE-BASED NOURISHMENT FOR EVERY STAGE OF LIFE
Competitive swimmer Ana María Canaval Landázuri, of Lima, Peru, relies on *Ensure Advance* after practice to help rebuild her strength and energy.

**KEEPING ADULTS HEALTHY**

Abbott is the world leader in Adult Nutrition, with a portfolio anchored by *Ensure*, an extensive line of products that provide complete, balanced nutrition for strength and energy. Building on our expertise in this area, Abbott has developed a number of formulations that support the unique nutritional needs of people with chronic illnesses, including *Glucerna* shakes and bars for people with diabetes. Products for active people on the go and nutritious snacks for healthy-living adults round out the Abbott portfolio.

**HELPING CHILDREN GROW STRONG**

We are also a leader in pediatric nutrition. *Similac*, one of our most successful brands, is just one of Abbott’s science-based nutrition products designed to make every stage of life a healthy one. In addition to products like the *Similac* line of infant and toddler formulas, we also offer *Pedialyte*, specially formulated to prevent dehydration, and *PediaSure*, our complete, balanced nutritional supplement that supports healthy growth and development.

*Ensure Advance* is scientifically formulated to support muscle health and recovery.
2016 BUSINESS HIGHLIGHTS

- Launched two new infant formulas in the United States, *Similac Pro-Advance* and *Pro-Sensitive* — breakthrough, first-to-market innovations that come closer to breast milk than ever before. These formulas contain a special prebiotic, like those found naturally in most breast milk.

- Delivered new natural vitamin E brain-development claims for *Similac* products with *OptiGRO*, Abbott’s unique blend of vitamin E, lutein and DHA.

- Launched *Ensure Enlive*, a nutritional supplement designed to help older adults rebuild lost muscle and regain strength and energy. *Ensure Enlive* is the first and only complete and balanced nutrition drink in the United States with 20 grams of protein and the unique ingredient HMB (B-hydroxy b-methylbutyrate), to help support muscle health.
The Global Leader in Adult Nutrition

More than 40 years ago, Abbott launched Ensure, and we’ve been the clear market leader in this category ever since. From the beginning, Abbott has relied on state-of-the-art nutrition science, continually improving our formulations for both general-use and disease-specific products like Nepro, for dialysis patients.

Our consistent global growth is supported by research like the Abbott-sponsored NOURISH study, which shed light on the importance of the specialized nutrition that participants in the study took while recovering from heart or lung disease.
